

OLD CATTON PARISH COUNCIL RECORDS MANAGEMENT AND RETENTION POLICY

1. Introduction

Old Catton Parish Council recognises that the efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the Parish Council. This document provides the policy framework through which this effective management can be achieved and audited. It covers:

- Scope
- Responsibilities
- Relationships with existing policies
- Retention schedule

2. Scope

This policy applies to all records created, received or maintained by the Council in the course of carrying out its functions.

Records are defined as all those documents which facilitate the business carried out by the Council and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.

A small percentage of records will be selected for permanent preservation as part of the Council's archives and for historical research. Historically these include the Minutes of the meetings.

3. Responsibilities

The Council has a corporate responsibility to maintain its records and records management system in accordance with the regulatory environment. The person with overall responsibility for this policy is the Clerk to the Council. The person responsible for records management will give guidance for good records management practice and will promote compliance with this policy so that information will be retrieved easily, appropriately and timely.

Individual employees must ensure that records for which they are responsible are accurate and are maintained and disposed of in accordance with the Council's Record Management and Retention Policy.

4. Relationships with Existing Policies

This policy has been drawn up within the context of:

- Freedom of Information Policy
- Data Protection Guidelines

and with other legislation or regulations (including Audit and Statute of Limitations affecting the Parish Council).

5. Retention Schedule

Under the Freedom of Information Act 2000, the Council is required to maintain a retention schedule listing the record series which it creates in the course of its business. The retention schedule lays down the length of time which the record needs to be retained.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention schedule refers to record series regardless of the media in which they are stored.

DOCUMENT TYPE	MINIMUM RETENTION PERIOD
Accident report forms	3 years or 3 years after the subject reaches their 18 th birthday whichever is greater.
Annual return	Indefinitely
